

Year 4 Homework Pick and Mix

Term: Spring 2021

Get Reading

Challenge yourself: try reading a new genre or type of text.

Look at the cover and title and ask:
What do you think will happen in this story?
What characters do you think we will meet?
Can you think of a different ending for the story?

Get Speaking

Do you think life would be better if we had robots to help us with our daily lives? How could life be made easier? What problems could arise?

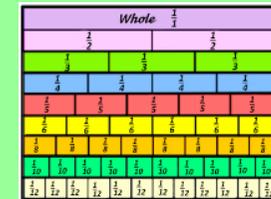

Get Creative

Can you design and make your own robot? What are its functions? Can you create an advert for it?

Get Mathematical

Can you make an interactive fraction wall to show equivalent fractions?

Get Exploring

We will be looking at the different cities in the UK for geography this half term. Can you visit some of London's most important landmarks?

Get Coding

There are many modern examples of robots that can do all sorts of wonderful things. Programmers have to write code to tell them what to do. Try learning about coding through [Minecraft on code.org](https://minecraft.oncode.org)

Get Cooking

We are looking at structures in DT this half term. Can you make a tiered cake? What flavours will you choose?

Rights Respecting

We are a rights respecting school. What articles are most important to you? Can you choose an article and create a poster?

Dear Parent/Carer,

Here are your child's home learning activities for this spring. The teaching staff have selected some activities that will support your child with their learning this term and encourage them to become independent learners. Please make time to choose and do some of these activities with your child. We are always interested to see and hear what home learning activities you have done- you can email it to your teacher at
