Play games – You can play number bond pairs online at www.conkermaths.com and then see how many questions you can answer in just one minute.

Ping pong – In this game, the parent says, "Ping," and the child replies, "Pong." Then the parent says a number and the child says the number bond. E.g. Parent: 16.

Child: 4

Practice little and often: in the car, while doing the shopping, while walking home.

Tell the time to the nearest hour and nearest half hour

o'clock half past

Talk about time – Discuss what time things happen. When does your child wake up? What time do they eat breakfast? Make sure that you have an analogue clock visible in your house or that your child wears a watch with hands.

Play "What's the time Mr Wolf?" – You could also give your child some responsibility for watching the clock.
